1. The following is an examiner's statement of reasons for allowance: the provided amendment and the arguments, filed March 13, 2007, have overcome the prior art of record.

Hunkin et al. ('810) does not show or suggest an annular bead formed in a leading end of the tapered walls of the valve housing and the annular bead being formed in an external surface of the tapered side walls and an annular groove formed in an interior being contiguous to the bottom wall to receive the annular bead in an abutting relationship. Krueger ('686) shows a cylinder having a lip disposed in the end of the cylinder and a groove to receive the end of the cylinder. It would not be obvious to modify the leading end of the tapered walls by providing a bead or a lip of Krueger because the structural relationship between the lip and the groove of its receiver is not a tapered wall abutting relationship.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PAUL T. CHIN whose telephone number is (571) 272-6922. The examiner can normally be reached on MON-THURS (7:30 -6:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Mackey can be reached on (571) 272-6916. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
